

Opportunity (Completed by IT4Causes)	Agency	Multiple, Assisting Families of Inmates (AFOI.org) is one			
	Project	SaaS Implementation - Donor Management setup and configuration in Little Green Light			
	Project Description	Little Green Light (LGL) is IT4Causes preferred donor management solution for our smaller clients, and we'd ask you to follow our playbook and template project plan to work with one customer to set up their account and migrate existing donor lists into the tool.			
	Task	Lead/execute implementation of LGL at one client site.			
	Task Description	Take LGL overview training if necessary. Discuss project with IT4Causes rep (we've done this several times before, so we can walk you through the basics). Meet with client and IT4Causes rep to understand their current data. Customize template project plan for this customer. Follow existing Playbook to Implement cloud-based LGL. Import any existing donor and donation data. Assist in customer training.			
	Requested Timeframe	January for AFOI; Ongoing opportunities with other clients			
	Estimate	20-30 hours			
	Skills Needed	Other IT Skills (please specify)			
		Experience in implementing any cloud-based SaaS application			
	Skill Level Requested	Intermediate
