

Opportunity (Completed by IT4Causes)	<p>Agency Various</p> <p>Project Assessment of IT Capabilities</p> <p>Project Description We're doing a comprehensive assessment of all IT capabilities at a number of clients, and we're always looking for experienced IT pros to help us ask the right questions and take great notes about the processes and systems they use to get their jobs done, so we can help make improvements</p> <p>Task Serve as a Consultant during assessment meetings. We'll conduct a 2-3 hour assessment meeting during business hours and need someone to attend this session with us. We'll loop you in when scheduling the meeting, and we'll send you some materials to review prior to the meeting, ask you to help us ask the right questions during the meeting, and to compile and deliver your notes to us. We'll probably have some follow-up questions as well as ask you to help us validate the recommendations we provide as a result of the assessment</p> <p>Task Description</p> <p>Requested Timeframe To be arranged</p> <p>Estimate 3-5 hrs</p> <p>Skills Needed Business Analysis Consulting</p> <p>Skill Level Requested Intermediate Intermediate</p>
